Information for those who need a residence permit or work permit

If you are a citizen of a country outside the EU/EEA and want to settle in Sweden, you need a residence permit. If you want to work in Sweden, in most cases you need a work permit. If you do not have a permit, you can contact Migrationsverket (the Swedish Migration Board).

If you need a residence or work permit, the Swedish Social Insurance Agency will collect information about permits directly from the Swedish Migration Board. The information received from the Swedish Migration Board will then form the basis for the Swedish Social Insurance Agency's decision. Since you have already received information from the Swedish Migration Board regarding their decision, the Swedish Social Insurance Agency will not inform you about the information we have collected

If you believe that Migrationsverket´s information about your residence permit or work permit is incorrect, you should contact them.

Your form will be scanned by a computer, so please write clearly and within the marked boxes and lines. We cannot read or receive information that you write anywhere else on the form.

We process your residence and work information fully or partially automatically, as a basis for assessing whether you are insured in Sweden. Read more about how we process your personal data and about your rights at forsakringskassan.se.
